

PoINT Publisher NG - Mobile Client

Monitor the disc publishing process with your mobile device

HIGHLIGHTS

PoINT Publisher NG Mobile Client

- App for Apple iPhone and iPod touch
- App Store download
- Login Authentication
- Monitoring the job list and productions system status
- Administrator intervention notifications (e.g. bin empty status)

The Mobile Client is an extension to PoINT Publisher NG, running on mobile devices like Apple's iPhone or iPod touch. You just need to download the PoINT Publisher NG – Mobile Client App from the App Store and set up a network connection between your Apple device and the PoINT Publisher NG server. Launch the Mobile Client, login and see all important production system status information. Switch to the job list and get an overview about all queued jobs and their progress. Receive notifications, if your production system requires administrator intervention (e.g. new blank media). Enjoy your new freedom to control your media production from wherever you want, just with your iPhone or iPod touch and PoINT Publisher NG – Mobile Client.

MOBILE DEVICES

- Apple iPhone and iPod touch

REQUIREMENTS

- PoINT Publisher NG Server with installed MS IIS
- iPhone OS 3.1
- Network connection (HTTP) between PoINT Publisher NG server and mobile device
