SVA and PoINT: New Partnership for Optimal Data Management

Wiesbaden/Siegen. The new partnership between PoINT Software & Systems and SVA System Vertrieb Alexander GmbH gives companies access to innovative storage solutions for efficient and legally compliant data management. Thus, SVA expands its offering in the area of business continuity, among others.

The system house SVA offers comprehensive and flexible IT solutions at 25 locations throughout Germany. In the field of intelligent data and information management, SVA has now complemented its portfolio with PoINT's software solutions. "The new partnership with SVA is a special benefit for the customers", comments Sebastian Klee, CMO at PoINT Software & Systems, "because this way the companies benefit from the decades of experience and the comprehensive know-how of two experts for their IT".

With PoINT software products, SVA experts develop individual storage solutions tailored to the respective company, which seamlessly fit into the entire IT

infrastructure. PoINT products enable optimization and efficient use of storage systems. At the same time, PoINT software supports companies in implementing compliance and archiving requirements. Maximum flexibility is provided by vendor independence and scalability.

In the future, customers will be able to meet the challenges of data growth with PoINT's software products and a overall solution from SVA.

About SVA:

SVA System Vertrieb Alexander GmbH is one of the leading German system integrators with more than 2,000 employees at 25 locations in Germany. We combine high-quality IT products with project know-how and flexibility to provide optimal solutions for our customers. Industry-independent core topics are data center infrastructure – such as storage, server and network solutions and virtualization technologies – as well as business continuity, IT service management and SAP. Our experts also combine more than twenty years of IT infrastructure experience with know-how for modern requirements such as IT Security, Big Data Analytics & IoT, End User Computing, Cloud and Agile IT & Software Development.

About PoINT

PoINT Software & Systems GmbH is specialized in the development and distribution of software products for storage, management and archiving of data. Our data & storage management solutions offer an easy and efficient integration of different storage technologies and systems in consideration of enterprise requirements. PoINT products allow optimized usage of storage systems and help to reduce costs and issues caused by data growth. The software solutions fulfil compliance and archiving requirements and provide independence from storage technologies and vendors.
